

## Lois Caligiuri

December 1, 1950 - March 23, 2018

Lois Caligiuri has sadly passed away at the age of 67 due to complications from Parkinsonism that she struggled with for a number of years. She survived breast cancer during her battle with Parkinsonism, but eventually lost her fight with the neurological disease, passing away in her sleep peacefully at home with her husband George by her side at night on March 23, 2018. Lois was born in New Jersey, and grew up in Valley Stream and Patchogue on Long Island. After graduation from high school, she worked as an administrative assistant at Stony Brook University for 11 years in the Mathematics and Economics Departments from 1969 to 1980. In 1980, she joined Brookhaven National Laboratory where she worked for 35 years in the Chemistry Department, the Materials Department, and the CFN until her retirement in 2015.

Lois was a sweet, kind, generous and loving person who always saw the best in people and was generous with her time and money to her friends and those in need. She liked to donate her time to support the United Way fund drive, and was especially generous to local animal rescue and shelter organizations. She especially loved to spend time with her close friends who are too numerous to mention. Her younger sister Marilyn and father George passed away in the mid-1970's, leaving her mother Josephine alone in Patchogue. Lois spoke with her mother every night at 8 PM, and spent time with her every weekend and especially on holidays. When her mother became ill, she moved in to live with us until she died in 2008, also passing away at home, in bed and in her sleep peacefully.
